

PHYSICAL CHEMISTRY

Part-Time Instructor, Spring 2017 (Sabbatical Replacement)

EDINBORO UNIVERSITY
College of Science and Health Professions
Chemistry Department

Teaching responsibilities will be for the second semester physical chemistry lecture and laboratory course of a full-year sequence, and two sections of first-year chemistry labs. Teaching load will be a total of 12 contact hours. The physical chemistry content must focus on chemical kinetics, quantum mechanics and spectroscopy.

Qualifications: Ph.D. in Physical Chemistry or related field. (Candidates in the final stages of writing/defending their dissertations may be considered.) Preference will be given to candidates who have teaching experience in physical chemistry.

The salary will be approximately \$22,000.

Submit a CV, cover letter, transcripts (undergraduate as well as graduate) and three current references on-line at: <https://jobs.edinboro.edu/postings/search>. Teaching abilities and fluency in English will be assessed during a demonstration lecture. Evaluation of applications will begin on October 28, 2016.

Edinboro University is an Equal Opportunity Employer. All positions are contingent upon enrollment and budget.

Edinboro University is located 17 miles south of Erie, PA off Interstate-79. The successful candidate will replace a faculty member on sabbatical in a 7-member department. BS programs are currently offered in Chemistry (ACS certified), Biochemistry and Forensic Chemistry.
